Re: 4:20-cv-00076 Roberts v. The Department of Veterans Affairs et al

Dear Judge Ketchmark,

The purpose of this letter is to request service be effectuated by the USM. I apologize for failing to ensure this was properly completed the first time, as I now more clearly understand the process. I was under the impression that upon paying the Sedgwick County Sheriff's Department for service, that a Deputy would be serving each individual defendant at the Robert J. Dole VAMC. That was an incorrect assumption.

Your ruling, based on the facts I've submitted, could be a key component in a much larger issue of patient safety, and how the system should allow issues to be reported without retaliation by individuals serving in an official capacity for a Federal Agency. Thank you for allowing me the leeway to correct this matter.

Very respectfully,

*Ryan Roberts, CRNA*
